

FORD PRODUCING 4,000 CARS A DAY

Present Production Greater Than For Same Period Last Year.

Ford is building cars at full speed. And, according to a statement from the factory at Detroit, the demand for Ford cars and trucks still exceeds the output, despite the fact that a new high level of production has been reached. By the first of May the figures representing daily production were in the neighborhood of 4,000 a day, so that the output of the Ford Canadian plant or any of the assembling plants. The output mounted daily, however, brought forth 1922, the greatest number that have been worked in one day for this year. Since the month of January, the output of Ford production figures for 1922 are 24,374, more than for the corresponding months of a year ago. The output for May 1921 will probably overshoot the 1920 figures by between fifteen and twenty thousand cars. Approximately 13,000 men are at work in the plant of the Ford Motor Company. The factory is open on full time, six days a week and three shifts a day. "We were never in better condition than we are now," said Henry Ford recently.

A man cultivating corn walks 211 miles a day if he plows four acres and makes two trips to the row. He rides only 11 1-8 miles to plow four acres with an

OLIVER Riding Cultivator

which does the trick at one trip. He has to turn around at the end 560 times when he walks and plows when he rides he only turns 28 times.

Allowing 1/2 of a minute for each turn he saves when riding. We have two and one-third hours' time each day he plows instead of turns.

Let us show you an Oliver Cultivator. It is economical.

Are You in DANGER?

If you are in the habit of keeping money or valuables on your person about your house, you are certainly in danger.

You are in danger not only of being robbed, but of having some worse fate befall you. There are, sad to say, those who would not hesitate to commit murder, if necessary, to expedite robbery that they have planned.

You will be safer and your money certainly will, if it is deposited in bank. We not only offer you 100% safety, but will add 4 per cent interest to your balance each year.

As to your valuables, you can now have a safe deposit box in our vault, which they, too, will be really safe.
